Safety data sheet according to 1907/2006/EC, Article 31

Printing date 10.03.2023

Version number 1.00

Revision: 10.03.2023

1 Identification of the substance/mixture and of the company/undertaking Product identifier

- Trade name: Benzyl nicotinate, API
- Article number: 2086
- CAS Number:
- 94-44-0
- · EC number:
- 202-332-3
- · Registration number The substance is exempt from REACH-registration.
- Relevant identified uses of the substance or mixture and uses advised against
- · Application of the substance / the mixture

Ingredient for pharmaceutical drugs or active pharmaceutical ingredient.

- · Details of the supplier of the safety data sheet
- Manufacturer/Supplier: CAELO Caesar & Loretz GmbH Herderstr. 31 D-40721 Hilden GERMANY
- Further information obtainable from:
 E-mail: info@caelo.de
 Tel.: +49210349940 (during regular opening hours)
- Emergency telephone number: Poison Information Center Bonn Venusberg-Campus 1, 53127 Bonn Tel: +49 (0) 228-192400

2 Hazards identification

- Classification of the substance or mixture
 Classification according to Regulation (EC) No 1272/2008
- Skin Irrit. 2 H315 Causes skin irritation.

Eye Irrit. 2 H319 Causes serious eye irritation.

· Label elements

- · Labelling according to Regulation (EC) No 1272/2008
- The substance is classified and labelled according to the CLP regulation.
- · Hazard pictograms

· Signal word Warning

Safety data sheet according to 1907/2006/EC, Article 31

Use fire extinguishing methods suitable to surrounding conditions.

according to 1907/2006/EC, Article 31

Printing date 10.03.2023

Version number 1.00

Trade name: Benzyl nicotinate, API

- Special hazards arising from the substance or mixture Combustible but not oxidising. In case of fire dangerous vapours/gases can be generated: Smoke gases.
 Advise for firefighters
- Advice for firefighters
- **Protective equipment:** In case of fire wear suitable protective clothes and respiratory protection.
- Additional information Prevent from entering into drains. Fire residues must be disposed in accordance with official regulations.

6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures Avoid contact with the substance.
- \cdot Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- **Methods and material for containment and cleaning up:** Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13.
- Reference to other sections
 See Section 7 for information on safe handling.
 See Section 8 for information on personal protection equipment.
 See Section 13 for disposal information.

7 Handling and storage

· Precautions for safe handling No special precautions are necessary if used correctly.

- · Information about fire and explosion protection: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: Store in a cool location.
- (+2°C bis+8°C)
- · Information about storage in one common storage facility: Not required.
- **Further information about storage conditions:** Protect from exposure to the light.
- Keep container tightly sealed.
- Storage class: TRHS 510: 10 Combustible liquids
- · Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

- · Control parameters
- · Ingredients with limit values that require monitoring at the workplace: Not required.
- · Exposure controls
- Appropriate engineering controls No further data; see item 7.
- · Individual protection measures, such as personal protective equipment
- General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.

- **Respiratory protection:** Use suitable respiratory protective device only when aerosol or mist is formed. • **Hand protection** Protective gloves
- Material of gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye/face protection Tightly sealed goggles

9 Physical and chemical properties

 Information on basic physical and chemical prop General Information 	perties			
· Physical state	Fluid			
· Colour:	Yellow			
· Odour:	Aromatic			
· Odour threshold:	Not determined.			
 Melting point/freezing point: 	24 °C			
Boiling point or initial boiling point and boiling				
range	180 °C			
· Flammability	Not applicable.			
Lower and upper explosion limit				
· Lower:	Not determined.			
· Upper:	Not determined.			
· Flash point:	170 °C			
 Decomposition temperature: 	Not determined.			
pH	Not determined.			
Viscosity:				
Kinematic viscosity	Not determined.			
Dynamic:	Not determined.			
Solubility	"			
water at 20 °C:	0.3 g/l			
Partition coefficient n-octanol/water (log value)	Not determined.			
Vapour pressure:	Not determined.			
Density and/or relative density	4.40			
Density at 20 °C:	1.16 g/cm ³			
· Relative density	Not determined.			
· Bulk density:	1,170 kg/m ³			
· Vapour density	Not determined.

10 Stability and reactivity

- · Reactivity No further relevant information available.
- · Chemical stability
- **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.
- Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological information

- · Information on hazard classes as defined in Regulation (EC) No 1272/2008
- Acute toxicity Based on available data, the classification criteria are not met.
- · LD/LC50 values relevant for classification:
- Oral LD50 2,188 mg/kg (rat)
- Primary irritant effect:
- Therapeutically used substance.

Effect: Vasodilatation.

- · Skin corrosion/irritation Causes skin irritation.
- · Serious eye damage/irritation Causes serious eye irritation.
- Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- · Reproductive toxicity Based on available data, the classification criteria are not met.
- STOT-single exposure Based on available data, the classification criteria are not met.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- Aspiration hazard Based on available data, the classification criteria are not met.
- Information on other hazards
- · Endocrine disrupting properties

On the basis of the available data, the substance does not meet the criteria for the identification of substances having properties of interference with the endocrine system, in accordance with Article 59, paragraph 1 of the REACH Regulation and the criteria established in the Delegated Regulation (EU) 2017 / 2100 of the Commission or in Commission Regulation (EU) 2018/605.

12 Ecological information

- · Toxicity
- · Aquatic toxicity: No further relevant information available.
- Persistence and degradability No further relevant information available.
- · Bioaccumulative potential No further relevant information available.
- · Mobility in soil No further relevant information available.
- · Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- · vPvB: Not applicable.
- Endocrine disrupting properties

Based on the available data, the substance does not meet the criteria for the identification of substances with properties affecting the endocrine system according to Article 59(1) of the REACH Regulation and the

(Contd. of page 6) criteria of the Commission Delegated Regulation (EU) 2017/2100 or in the Commission Regulation (EU) 2018/605.

The product does not contain substances with endocrine disrupting properties.

- Other adverse effects
- · Additional ecological information:
- · General notes:

Water hazard class 2 (German Regulation) (Assessment by list): hazardous for water Do not allow product to reach ground water, water course or sewage system. Danger to drinking water if even small quantities leak into the ground.

13 Disposal considerations

· Waste treatment methods

Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packaging:
- Recommendation: Disposal must be made according to local regulations.

14 Transport information

14 mansport mormation
